

WEB.COM GROUP, INC. PATENTS

Web.com Group, Inc. and affiliates (“Web.com”) is the owner of numerous United States patents, and certain Web.com products and processes may be covered by one or more of the patents listed below:

[Computerized Transactions Using a Computer Network](#)

[Using Virtual Network Address Information During Communications](#)

[Automatically Configured Network Server](#)

[Synchronized Server Parameter Database](#)

[Facilitating Load Balancing Across Name Servers](#)

[Dynamically Incorporating Updates to Active Configuration Information](#)

[Bandwidth On Demand Subscriber System](#)

[Scheduling Processes Based Upon Virtual Server Identifiers](#)

[Computer Storage Systems for Computer Facilities](#)

[Method and Apparatus for Providing a Self-Service File](#)

[Continuation of U.S. Pat. 6,268,851](#)

[Database Using Active Server Pages](#)

[Navigating Multiple Independent Windowed Images](#)

[Method and system for communicating between clients in a computer network](#)

[Method and Apparatus for Providing Name Services](#)

[Method and Apparatus for Navigating Multiple Independent Windowed Images](#)

[Database access using active server pages](#)

[Method and system for communicating between clients in a computer network](#)

[Apparatus and Method for Web Forwarding \(Network Solutions\)](#)

[Unified Web-Based Interface-To Multiple Registrar Systems \(Network Solutions\)](#)

[Method and Apparatus for Automatic Dial-Up Dial-Down Web Hosting](#)

[Domain Manager and Method of Use](#)

[Domain Manager for Plural Domains and Method of Use](#)

[Method and Apparatus for URL Forwarding](#)

[Method and Apparatus for Analyzing Domain Name Registrations](#)

[Providing User Access to Dynamic Updating of Remote Configuration Information](#)

[Server Configuration Management and Tracking](#)

[Method and Apparatus Providing Distributed Domain Management Capabilities](#)

[Domain Manager and Method of Use](#)

[Method and Apparatus for URL Forwarding](#)

[Domain Manager and Method of Use](#)

[System and Method for Managing Server Configurations](#)

[Mobile Content Service \(Network Solutions\)](#)

[Apparatus and Method for Web Forwarding \(Network Solutions\)](#)

[Certified Offer Service for Domain Names \(Network Solutions\)](#)

[Method and System for Scoring Domain Names \(Network Solutions\)](#)

[Domain Name Acquisition and Management System and Method](#)

[Registry-Integrated Internet Domain Name Acquisition System](#)

[Pathway-Specific, Registry-Integrated Domain Name Registration System](#)

[Domain Name Acquisition and Management System and Method](#)

[Domain Name Acquisition and Management System and Method](#)

[Domain Name Acquisition and Management System and Method](#)

[Demand Based Domain Name Auctionability](#)

[Domain Name Management System and Method](#)

[Domain Name Acquisition and Management System and Method](#)

[Domain Manager for Plural Domains and Method of Use](#)

[Methods and Apparatus for generating an Online Marketing Campaign \(Yodle\)](#)
